

10 WAYS YOU CAN SAVE WATER

When it comes to conserving water, small actions can make a big difference.

Fix leaky faucets

Take shorter showers

Use drip irrigation systems

Install efficient shower heads

Sweep driveways instead of using a hose

Reduce lawn areas with low-water-use plants

Install a water-saving toilet

Turn off the tap while brushing your teeth

Water in the morning or evening to avoid evaporation

Install rain barrels to collect rain water from your roof

Drinking water is a scarce resource, especially during dry periods. By following these simple tips, you are doing your part to conserve this precious resource.
